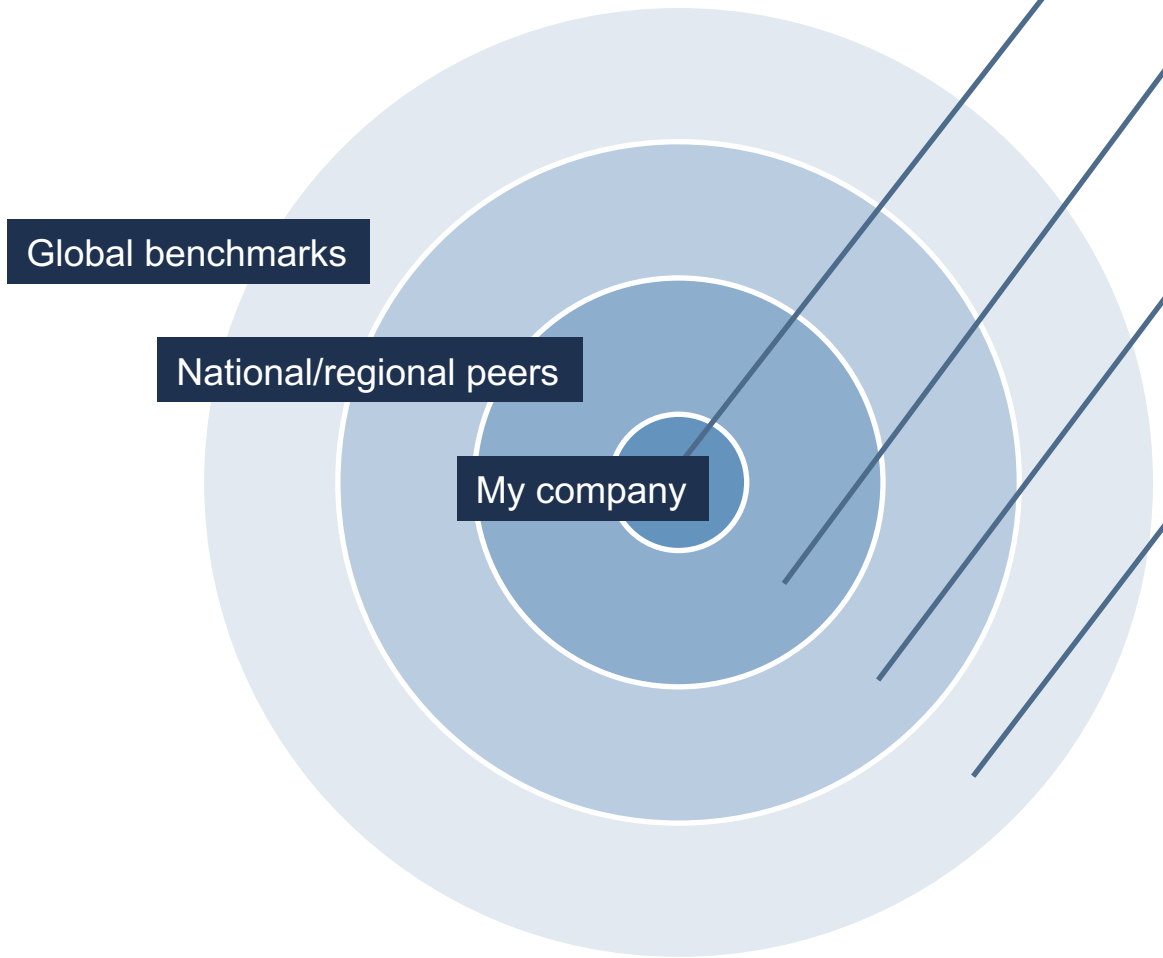
GII Climate Ambition Accelerator

Capacity Building – Types of activities



Self-learning Sessions

- **UNGC Academy**
- Online modules and materials, content produced by consultants

Peer-learning Sessions

- **Organized and hosted by LN**
- Peer-to-peer sessions, group discussion and reflection, online session debrief (1,5-2h)

Facilitated Sessions

- **Organized and hosted by LN, external technical support**
- Technical content and approach, Q&A, external support (1,5-2h)

Global Sessions

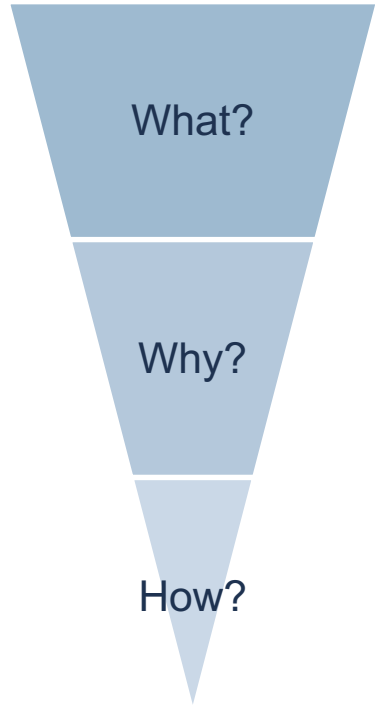
- **Organized and hosted by GCO**
- Online sessions and/or roundtables, best practice, different topics related to SBTi

Local Track – Basic Level

Self-learning (on demand) Academy-style courses, materials and resources
FS Facilitated sessions, technical, WRI/WSP support
P2P Peer-learning sessions, group discussion and reflection
GS Global sessions, panels and roundtables

Modules and Activities:

1. FOUNDATIONS | GHG Accounting and SBTi Basics
   a. Self-learning Scope 1, 2 and 3 – Direct/Operational, energy-related and indirect emissions
   b. **FS** **WSP** Scope 1, 2 and 3 emissions, efficiency, risks and opportunities, the value of emissions management, Q&A
   c. Self-learning SBT & SMEs: SME methodology and case studies
   d. **FS** **WRI** SBTi and SMEs, main takeaways, opportunities and synergies
2. BUSINESS CASE | Driving internal climate change ambition, management and board-level buy-in
   a. Self-learning SBTs – Rationale, KPIs and milestones: internal engagement and buy-in
   b. P2P Group reflection: sustainable procurement examples, adapting business to climate-related requirements
3. IMPLEMENTATION | How to do it?
   a. Self-learning Scope 1 & 2: managing your global emissions, from low hanging fruits to advanced initiatives
   b. Self-learning Emissions across the value chain: Global case studies, featured profiles
   c. **FS** **WSP** Managing scope 1 & 2, emissions reduction activities, location vs. market-based RECs



Throughout the program
GS Global Sessions

Local Track – Advanced level

Self-learning (on demand) Academy-style courses, materials and resources
FS Facilitated sessions, technical, WRI/WSP support
P2P Peer-learning sessions, group discussion and reflection
GS Global sessions, panels and roundtables

Modules and Activities:

1. FOUNDATIONS | SBT Deep Dive
   (Optional) Self-learning Scope 1, 2 and 3 – Direct/Operational, energy-related and indirect emissions
   a. Self-learning SBTi and Net-zero: SBTi deep dive, net-zero concept
   b. Self-learning Scope 3 overview: categories, tools, supplier engagement
   c. **FS WRI** SBTi, regional/national main sectors, experience sharing, Q&A, scope 3 emissions
2. BUSINESS CASE | Driving internal climate change ambition, management and board-level buy-in
   a. Self-learning SBTs – Rationale, KPIs and milestones: internal engagement and buy-in
   b. P2P Group reflection: the Investor Agenda & Climate Advocacy, regional/national stakeholders and examples
3. IMPLEMENTATION | How to do it?
   a. Self-learning Scope 1 & 2: managing your global emissions, from low hanging fruits to advanced initiatives
   b. Self-learning Emissions across the value chain: Global case studies, featured profiles
   c. **FS WSP** Managing scope 1 & 2, emissions reduction activities, location vs. market-based RECs
